# Oil, Gas & Chemicals HAZMAT

Ensure the safety of your HAZMAT cargo.

Transporting goods of any sort is a complicated matter. Transporting HAZMAT (Hazardous Materials) becomes a far more complex and riskier task. Safety and security is of paramount importance as the impact of failure in these areas can be disastrous and results in the loss of valuable cargo and severe damage to the immediate environment and those who are in close proximity. Failure therefore, is not an option.

---

Pointer SA, a member of Pointer Telocation Ltd. (NASDAQ: PNTR) is a leading provider of cutting-edge products and technology, and Software as a Service (SaaS) to the Fleet, Automotive, Insurance, Cargo and Public-safety industries.

Pointer Telocation has a growing client base with products and technologies installed in over 1.5 million vehicles across 55 countries globally.

## RECOMMENDED SOLUTIONS

Dashboard & Analytics

Safety & Eco Driving

Vehicle Diagnostics

Driver Access & Compliance

Route & Task Management

Vehicle & Driver Security

POINTER PROVIDES THE FULL SPECTRUM OF FUNCTIONALITY TO MANAGE YOUR FLEET AND MORE. POINTERS RANGE OF SOLUTIONS WILL ENABLE YOU TO REDUCE COSTS, IMPROVE EFFICIENCIES AND MANAGE SECURITY RISK. IN ADDITION, WE'LL HELP YOU INCREASE SAFETY WITH HOUR OF SERVICE PROGRAMS, DRIVER TRAINING TOOLS AND PERFORMANCE SCORECARDS ALONG WITH THE ABILITY TO MEASURE THEIR RESULTS.

- 1.** Pointer's Dashboard and Analytics is an excellent tool for large fleet owners and companies, requiring a 360 management information view of behaviour coupled with vehicle statistics.
- 2.** Fleet management is generally comprised of various disparate software platforms, systems and applications including: ERP and dispatching; fleet planning; task monitoring; personnel scheduling; managing and scheduling maintenance and vehicle service; refuelling systems; billing; and much more. These singular systems create complexity in addition to being inefficient, wasting time and resources. Pointer APIs allow you to integrate all of these system into a single comprehensive solution customised to your specific needs.
- 3.** Pointer's unique driver feedback display solution is a visual and verbal feedback to drivers in real-time on their driving behaviour. Driver's are alerted to harsh break, excess idling and harsh acceleration and coached into a more economic and less risky style of driving while on the road. The solution records all alerts and management and HR can review the reports for their own records, training and disciplinary actions.
- 4.** Improve the scheduling of activities, arrival and departure times and the duration of events such as stop time, through use of Pointer Manager.
- 5.** Gain control with the ability to lock-out unauthorised drivers or drivers who have not been trained to transport certain loads. This can extend to the detection of drivers, by requiring prior identification by the vehicle before the beginning of each trip. Naturally this applies to the prevention of vehicle theft.
- 6.** Early notification via SMS or email alerting advises the fleet operator to investigate and react on emergency and fleet management alerts timeously. Enhancements of SMS alerting allows operators to manage customer points of field workers.
- 7.** Reduce risk with the ability to map high-risk areas and improve real-time management and safety of vehicles and drivers in these regions.
- 8.** With fuel losses being such an important and immediate area of savings, further controls and reporting are available through integration with supplier and client side fuel transportation management platforms.
- 9.** Pointer Safety includes a 24 hour alarm response and vehicle ground recovery service 365 days a year wherever your vehicles are in the country. View vehicle location and information in real time right down to street level to monitor crisis or theft situations.
- 10.** Taking control back on managing load theft. Load theft is an ever increasing costs and results in millions of Rands lost. Pointer provides solutions so you are in control of managing your load from the moment the vehicle leaves the depot to delivery point.
- 11.** Remotely control opening and closing of cargo doors via hydraulic locking mechanism, and prevent the tampering of the telemetry system with Pointer's security enclosures.
- 12.** Pointer's optional Safety Officer service is available to clients where necessary in the chemical or similar industries and offers optional investigations and reports.
